

D & V Electronics is a Manufacturer and Supplier of state-of-the-art test solutions for the Automotive and Aerospace Electric Vehicle Markets. Our Woodbridge, Ontario facility is currently looking for a Technical Support Specialist to be responsible for providing technical support and application solutions for D&V customers, warranty, and on-going support, and after sales service. If your qualifications and experience meet our needs, we invite you to apply for the following position:

Title: Technical Support Specialist (Field Service Engineer) Ref 26/011

Role:

- Ensure all Zendesk tickets are handled in a timely manner.
- Responsible for supporting customers world-wide by phone, email, team viewer and on site.
- Document, maintain and follow-up on all customer inquiries, through the Tracking System database.
- Assist in the debugging, fault finding and root cause analysis of prototype and standard machines - to include system level testing and PLC programs, in-house and at the customer's site.
- Create training materials and train customers in the use of company products.
- Installation and commissioning of new equipment
- Calibration and verification of testers
- Onsite maintenance/repair of testers
- Responsible to assist Project Managers on open issues on equipment, in-house and customer site, for F.A.T. (Factory Acceptance Tests) and closing issues for S.A.T. (Site Acceptance Tests)
- Validation and verification of application performance, on new and existing D&V Products, as required.
- Responsible to process, monitor and follow-up on completion of RMAs, as assigned.
- Other duties as assigned by management.

Education and Experience

- B.Sc. in Electrical/Mechanical Engineering
- Excellent written and oral communication skills
- 5+ years in a technical support role.
- Outstanding troubleshooting and diagnostic capabilities of electronic, electromechanical, and electrical systems.
- Excellent customer service skills and relationship building
- Excellent problem solving and analytical skills.
- Advanced knowledge of electronic circuit applications
- Advanced knowledge of computers and programming
- Demonstrated ability to work in a collaborative team environment with engineers, programmers, and sales professionals.
- Familiarization with automotive electromechanical systems and electronics would be an asset.
- Must be willing and able to travel (drive and fly) to the USA and Overseas.
- Must have a valid passport and driver's License.

D & V Electronics Ltd. values their employees. We encourage life-long learning and foster employee personal growth. If you are someone who enjoys working in a creative and innovative work environment, and would like to join our team, please submit your resume and covering letter to: careers@dvelectronics.com or fax us at (905) 264-0502.

We thank all applicants for their interest in our organization, however; only those selected for an interview will be contacted.
